Dutch Find-a-Word

Search the website and find twelve Dutch words, or words associated with the Netherlands.
Try to fit as many of these words as possible into the grid to create your own Find-a-Word.

Write your words on the lines at the bottom of the page. Once you have placed all your Dutch words in the grid provided, fill in the empty spaces with any letters you like.

Why not give your Find-a-Word to a friend and see if he or she can find all your words?

Hint: copy your Find-a-Word first so that you have your own to keep.
