

# CALCULATING WITH AUSTRALIAN NOTES AND COINS

## Currency continuum

Name: \_\_\_\_\_

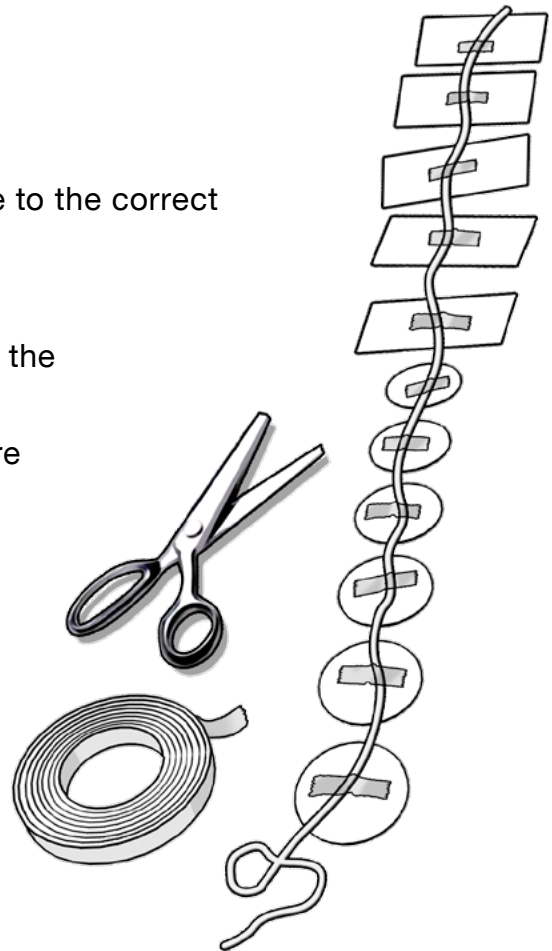

Follow these instructions to make a currency mobile and show your understanding of ordering the Australian notes and coins from lowest to highest value.

What you will need:

- Coin and note pictures (on pages 2 and 3)
- Scissors
- String
- Masking tape
- Coloured pencils

What to do:

1. Colour the coins and notes as close as possible to the correct colours.
2. Cut out the coin and note pictures.
3. Vertically, put the coins and notes in order from the lowest to highest value.
4. Turn the coins and notes over so the pictures are facing down. Make sure they stay in the correct order.
5. Lay a piece of string along the back coins and notes (see picture).
6. Use a piece of masking tape to stick the string to the back of each coin/note.
7. Display your currency mobile around the classroom.
