

MOTHER'S DAY

Peek-a-Boo Card Instructions

What you will need:

- An A4-sized piece of card.
- A photograph of yourself. The card looks most effective if your head is quite large in the photo. A passport style photo is ideal.
- Scissors
- Glue
- Textas, coloured pencils or crayons.

Instructions

1. Fold the piece of card in half to make a greeting card.
2. Cut around your head in the photograph. Keep the head piece and discard the rest of the photo.
3. Place your head photograph on the front of the card and trace around it.
4. Cut around your tracing lines to make a hole on the front of the card.
5. Glue your head photograph on to the inside of the card, so you can see it through the hole in the front of the card when the card is closed.
6. Using texta, pencil or crayon, draw your body under the head photograph.
7. Write a personalised message on the front and the inside of the card.
