

MOTHER'S DAY

Heart Bookmark

What you will need:

- A4 sheets of coloured cardboard or paper. You will need green for the leaves, but the heart can be any colour.
- A drinking straw
- Sticky tape and glue
- Scissors

Instructions

1. Fold a piece of coloured cardboard in half and draw a heart shape.
While the card is folded, cut out around your heart so you have two identical heart shapes.
2. Tape the straw to the back of one of the heart shapes.
3. Decorate the second heart with your greeting.
4. Place your decorated heart over the first one so that the straw is between them and secure with glue or tape.
5. Cut out two leaf shapes from the green card.
6. Secure the leaf shapes to the middle of the straw using tape.

Your bookmark is now finished.
