

SEASONS

What time of the year?

Name/s: _____

Did you know that not every country has their seasons in the same months as we do in Australia?

Countries south of (below) the equator have their seasons in the same months as Australia. Countries north of (above) the equator have their seasons in different months.

Use a world map or globe and the information below to help you complete the table on page 2.

Countries south of the equator (like Australia)		Countries north of the equator	
Summer	December January February	Summer	June July August
Autumn	March April May	Autumn	September October November
Winter	June July August	Winter	December January February
Spring	September October November	Spring	March April May

SEASONS

Country	Above or below the equator? Circle your answer	Season	Months
Australia	Above Below	Summer	
Canada	Above Below		September October November
South Africa	Above Below	Spring	
China	Above Below		June July August
England	Above Below	Winter	
Fiji	Above <u>Below</u>		December January February
Russia	<u>Above</u> Below	Autumn
