

SEASONS

What to wear?

When you choose what you are going to wear, do you think about the season and the weather? You might think about the activity you will be doing too.

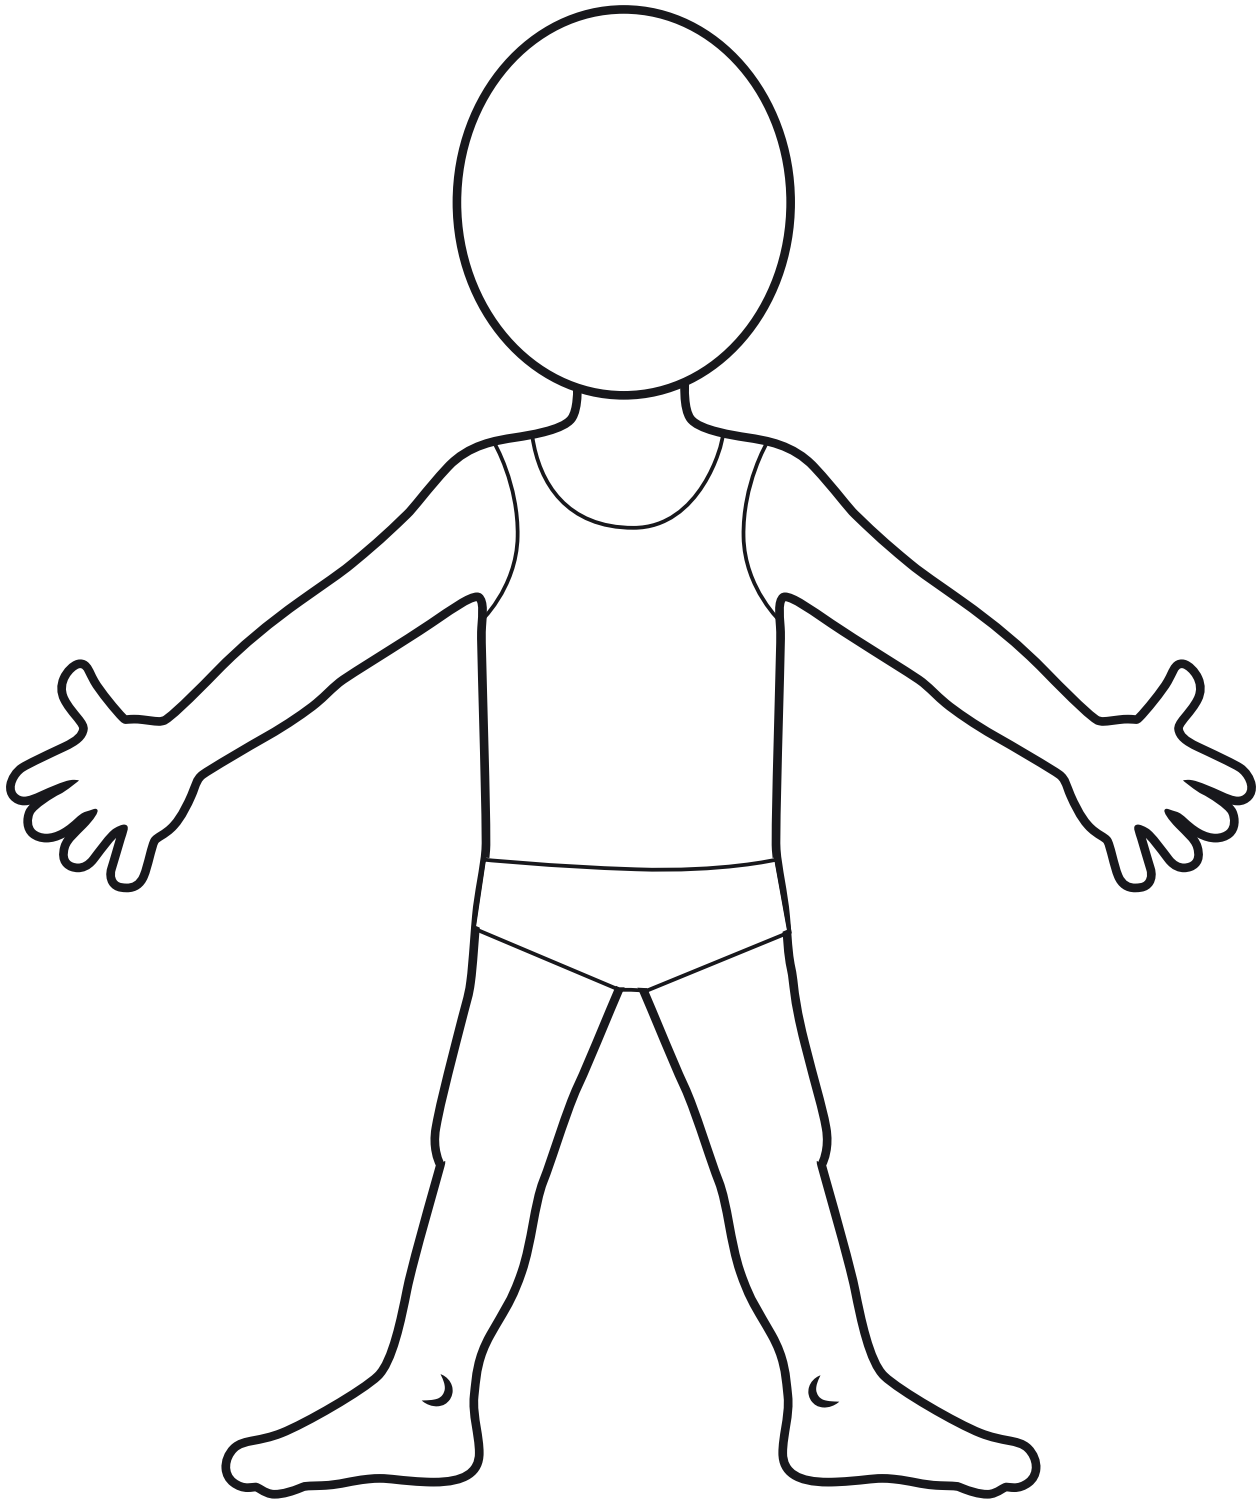

On the following pages, you will see many different clothes and an outline of a person. Draw your face on the person then dress it for a particular season, weather or activity. Colour the clothes in, then cut them out and glue them on the person. If you want different clothes you can just draw them on your person.
