

TEMPLATES

Make a basket 1

Follow these instructions to make a basket.

What you will need:

- basket template (printed onto thin card will make the basket stronger)
- scissors
- items to decorate your basket (e.g. coloured pencils, glitter, stickers etc.)

What to do:

1. Cut out the basket and handle pieces, following the solid black lines.
2. Colour or decorate your basket (if you wish).
3. Fold along each of the dotted lines.
4. After checking that the sides line up to create an open-top box shape, use a glue stick or tape to secure the sides to each other.
5. Secure a handle piece to each side of the basket with tape or glue.
