# MATHS QUICK QUIZ 1

Fill in the gaps for the prime numbers between 0 and 20.  2,, 7,, 13,,		Will this goldit gold
a) What is a prime number?  Fill in the gaps for the prime numbers between 0 and 20.  2,,,,,,,	Name:	
Fill in the gaps for the prime numbers between 0 and 20.  2,,,,,,,,,	Prime and composite numbers	
2,, 7,, 13,, b) What is a composite number?  Fill in the gaps for the composite numbers between 0 and 20.  4,, 8,, 14,, 18,  Measurement and Units  'mm' is short for 20 mm = how many cm?  'cm' is short for 4 000 mm = how many m?  'm' is short for 300 cm = how many m?  'km' is short for 5 000 m = how many km?  'mg' is short for 1 000 mg = how many g?  'g' is short for 6 000 g = how many kg?  'kg' is short for 1 500 g = how many kg?  't' is short for 8 000 kg = how many t?  How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps.  days has September, April, and	a) What is a prime number?	
b) What is a composite number?  Fill in the gaps for the composite numbers between 0 and 20.  4,, 8,,, 14,, 18,  Measurement and Units  'mm' is short for 20 mm = how many cm? 'cm' is short for 4 000 mm = how many m? 'm' is short for 5 000 m = how many m? 'mg' is short for 1 000 mg = how many km? 'mg' is short for 6 000 g = how many kg? 'g' is short for 1 500 g = how many kg? 't' is short for 8 000 kg = how many t?  How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps days has September, April, and	Fill in the gaps for the prime numbers be	etween 0 and 20.
Fill in the gaps for the composite numbers between 0 and 20. 4,, 8,,, 14,, 18,  Measurement and Units  'mm' is short for 20 mm = how many cm?  'cm' is short for 300 cm = how many m?  'm' is short for 5 000 m = how many km?  'mg' is short for 1 000 mg = how many g?  'g' is short for 6 000 g = how many kg?  'kg' is short for 1 500 g = how many kg?  't' is short for 8 000 kg = how many t?  How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps days has September, April, and	2,, 7,, 13,	,,
4,, 8,,, 14,, 18,         Measurement and Units         'mm' is short for 20 mm = how many cm?         'cm' is short for 300 cm = how many m?         'm' is short for 300 cm = how many m?         'km' is short for 5000 m = how many km?         'mg' is short for 1000 mg = how many g?         'g' is short for 1500 g = how many kg?         'kg' is short for 1500 g = how many kg?         't' is short for 8000 kg = how many t?         How many days in each month of the year?         Complete the following popular rhyme by filling in the gaps         days has September, April, and	b) What is a composite number?	
Measurement and Units   'mm' is short for 20 mm = how many cm?   'cm' is short for 4 000 mm = how many m?   'm' is short for 300 cm = how many m?   'km' is short for 5 000 m = how many km?   'mg' is short for 1 000 mg = how many g?   'g' is short for 6 000 g = how many kg?   'kg' is short for 1 500 g = how many kg?   't' is short for 8 000 kg = how many t?    How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps.  days has September, April, and	Fill in the gaps for the composite number	rs between 0 and 20.
'mm' is short for       20 mm = how many cm?         'cm' is short for       4 000 mm = how many m?         'm' is short for       300 cm = how many m?         'km' is short for       5 000 m = how many km?         'mg' is short for       1 000 mg = how many g?         'g' is short for       6 000 g = how many kg?         'kg' is short for       1 500 g = how many kg?         't' is short for       8 000 kg = how many t?    How many days in each month of the year? Complete the following popular rhyme by filling in the gaps days has September, April, and	4,, 8,,, 14	,, 18,
'cm' is short for	Measurement and Units	
'm' is short for 300 cm = how many m?   'km' is short for 5 000 m = how many km?   'mg' is short for 1 000 mg = how many g?   'g' is short for 6 000 g = how many kg?   'kg' is short for 1 500 g = how many kg?   't' is short for 8 000 kg = how many t?    How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps.  days has September, April, and	'mm' is short for	20 mm = how many cm?
'km' is short for       5 000 m = how many km?         'mg' is short for       1 000 mg = how many g?         'g' is short for       6 000 g = how many kg?         'kg' is short for       1 500 g = how many kg?         't' is short for       8 000 kg = how many t?    How many days in each month of the year? Complete the following popular rhyme by filling in the gaps days has September, April, and	'cm' is short for	4 000 mm = how many m?
'mg' is short for 1 000 mg = how many g?	'm' is short for	300 cm = how many m?
'g' is short for 6 000 g = how many kg? 1 500 g = how many kg? 8 000 kg = how many t? B 000 kg = how many t?	'km' is short for	5 000 m = how many km?
'kg' is short for 1 500 g = how many kg?  't' is short for 8 000 kg = how many t?  How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps days has September, April, and	'mg' is short for	1 000 mg = how many g?
't' is short for 8 000 kg = how many t?  How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps.  days has September, April, and	'g' is short for	6 000 g = how many kg?
How many days in each month of the year?  Complete the following popular rhyme by filling in the gaps.  days has September, April, and	'kg' is short for	1 500 g = how many kg?
Complete the following popular rhyme by filling in the gaps days has September, April, and	't' is short for	8 000 kg = how many t?
Complete the following popular rhyme by filling in the gaps days has September, April, and	How many days in each month of th	ne vear?

### MATHS QUICK QUIZ 1

#### **Solutions**

#### Prime and composite numbers

- a) A prime number can only be divided by itself and 1. Prime numbers between 0 and 20 are:
  - 2, 3, 5, 7, 11, 13, 17, 19
- b) A composite number can be divided by numbers other than 1 and itself. Composite numbers between 0 and 20 are:
  - 4, 6, 8, 9, 10, 12, 14, 15, 16, 18, 20

#### **Measurement and Units**

'mm' is short for millimetre	20mm = 2cm
'cm' is short for centimetre	4 000mm = 4m
'm' is short for metre	300cm = 3m
'km' is short for kilometre	5 000m = 5km
'mg is short for milligram	1 000mg = 1g
'g is short for gram	6 000g = 6kg
'kg' is short for kilogram	1 500g = 1.5kg
't' is short for tonne	8 000kg = 8t

## How many days in each month of the year?

Thirty days has September, April, June and November.

All the rest have thirty-**one**, except for **February**, which has twenty-**eight** days clear and twenty-nine in each **leap** year.
