

TEMPLATES

Cow model instructions

You will need:

- Cow template pieces, enlarged to A3
- Scissors
- Sticky tape
- Glue stick
- Ruler

Instructions:

1. Starting with the body, cut around the outside of the shape, following the solid line, and then use a ruler to make a sharp fold along each of the dotted lines. (Make sure you fold in towards the back of the template.)
 2. Fold the body into a cube shape and secure the sides with sticky tape.
 3. Repeat steps 1 and 2 with the 4 leg pieces to create small rectangular prisms (cuboids).
 4. Apply glue to the top of each leg and attach them to the bottom of the body using the hexagon shapes as a guide.
- Hint:** Place some coins on top to hold everything down while the glue dries.
5. Cut around both of the horn shapes and fold back the sections marked with an x then attach them to the side of the head with glue. Make sure the x marks line up.
 6. Repeat step 5 with the ears, matching the grey dots to position them on to the head.
 7. Cut out the udder shape and glue it to the back of the rear legs.
 8. (Optional) Make a base by cutting a square out of a piece of cardboard and gluing it to the bottom of the cow's feet.
